E-ID: Further clarifications on technical implementation

Bern, 14.06.2024 - On 14 June, the FDJP briefed the Federal Council on the results of the informal consultation on the technical implementation of the new federal electronic identity (e-ID). In the responses received there is a clear demand for a high level of privacy protection and the possibility of using the e-ID abroad. In order to meet both requirements, the e-ID trust infrastructure must support different technologies in parallel, and for this, further clarifications are necessary. The FDJP is expected to submit a concrete proposal to the Federal Council by the end of the year.

Update on the legislative process
