- Detailed deliberation and overall vote

28.06.2024

- Council of States (plenary)

fall session 2024

- Final vote

in fall session 2024 at the earliest

# RK-S sharpens the cornerstones of the e-ID (1/2)

La Commission des affaires juridiques du Conseil des États a examiné le projet de loi fédérale sur l'identité électronique et autres moyens de preuve et l'a adopté par 9 voix contre 1 au vote sur l'ensemble ( **23.073** ). Elle a également adopté, par 8 voix contre 1, l'arrêté fédéral sur les crédits d'engagement alloués à la mise en place et à l'exploitation de l'e-ID. Les propositions de la commission visant à amender le projet, qui a déjà été examiné par le Conseil national, portent principalement sur la protection des données, la cybersécurité et la procédure d'émission de moyens de preuves électroniques par la Confédération et éventuellement par des prestataires privés.

Die Kommission für Rechtsfragen des Ständerates hat das Bundesgesetz über den elektronischen Identitätsnachweis und andere elektronische Nachweise beraten und dieses in der Gesamtabstimmung mit 9 zu 1 Stimmen angenommen ( **23.073** ). Der damit verbundene Bundesbeschluss über die Verpflichtungskredite für den Aufbau und den Betrieb der E-ID wurde mit 8 zu 1 Stimmen angenommen. Die Änderungsvorschläge der Kommission am Entwurf, welcher bereits vom Nationalrat beraten worden ist, betreffen hauptsächlich den Datenschutz, die Cybersicherheit und den Ausstellungsprozess digitaler Nachweise durch den Bund sowie potenziell durch Privatanbieter.

**MEDIENMITTEILUNG**

[E-ID LAW](#)

# LAC-S sharpens the cornerstones of the E-ID (2/2)

- **Facial image comparison** when creating an e-ID on site can also be done automatically
- The **source code** of the trust infrastructure software will not be published if this would jeopardize data security or the rights of third parties
- Public authorities should **always** accept the e-ID as a means of identification
- Immediately after the introduction of the e-ID, it is to be stored **exclusively in a specially designed "federal wallet" application**
- **Private providers of a "wallet" application** for the storage and presentation of the e-ID should also be permitted in future, but only if they comply with strict regulations issued by the Federal Council

# Next steps

**End of 2024:** Start of consultation on the implementing provisions

**E-ID  
REFERENDUM**

**???**

Questions from the audience, conclusion

# Schedule and phases

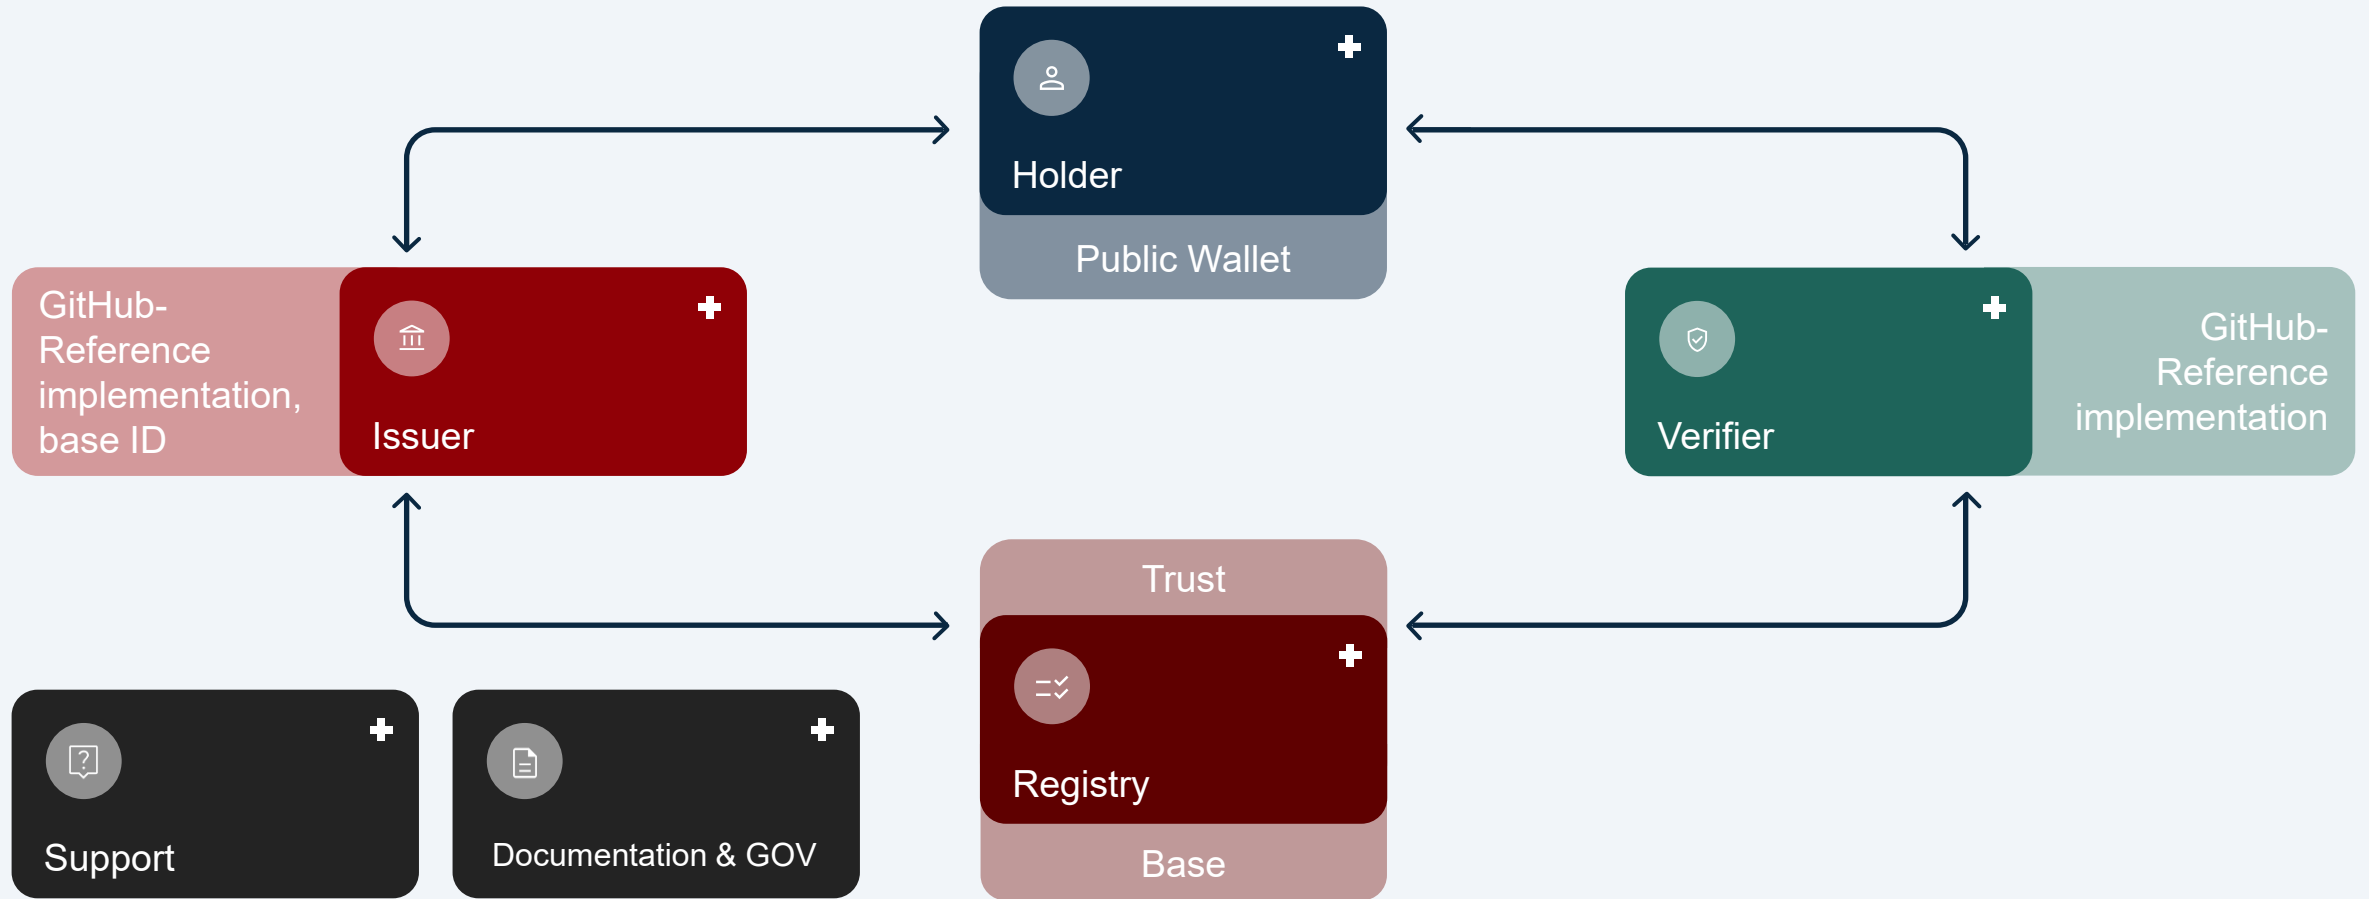

# Technology

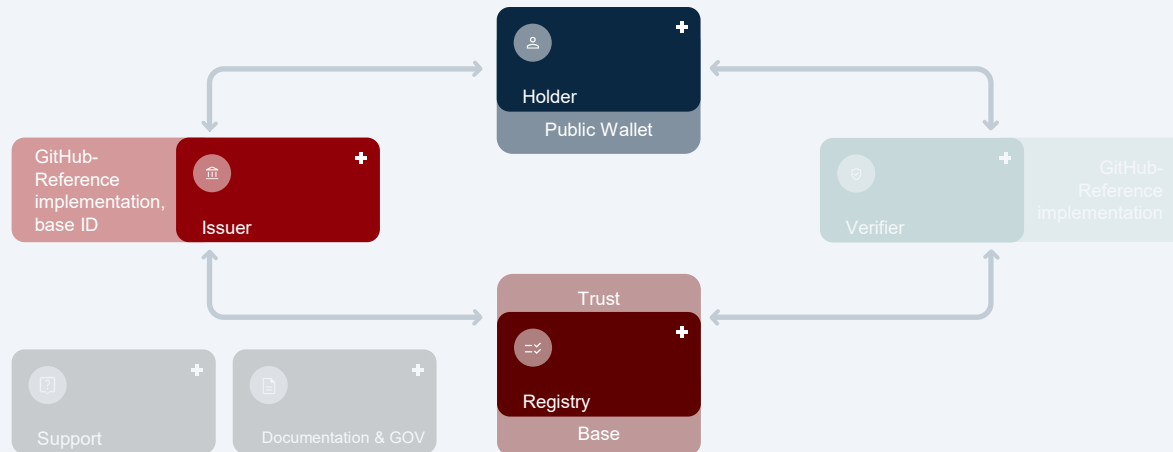

# Scope of Public Beta

# Scope

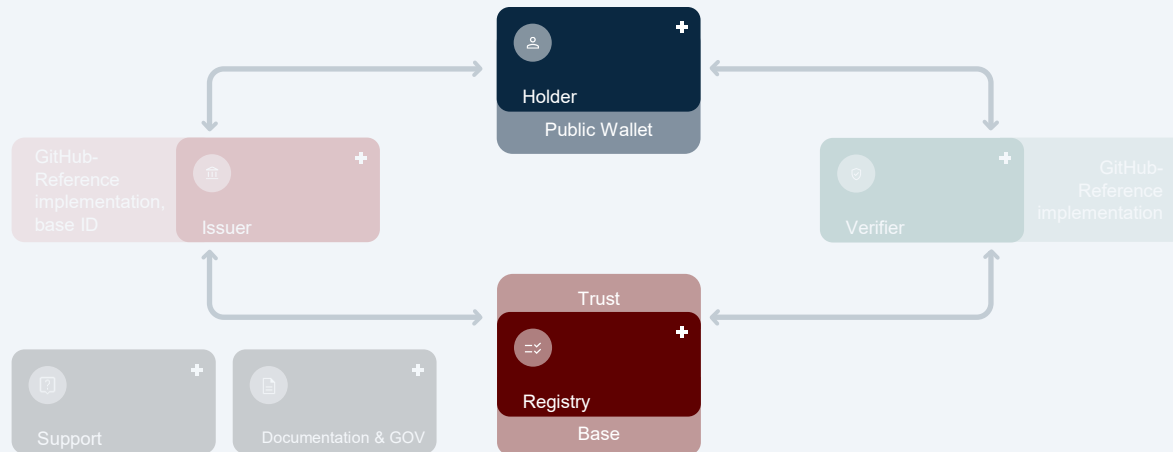

## Issuer

- Generic component for the provision of use case-specific issuers by issuers
- VCs can be issued and managed (status)

# Scope

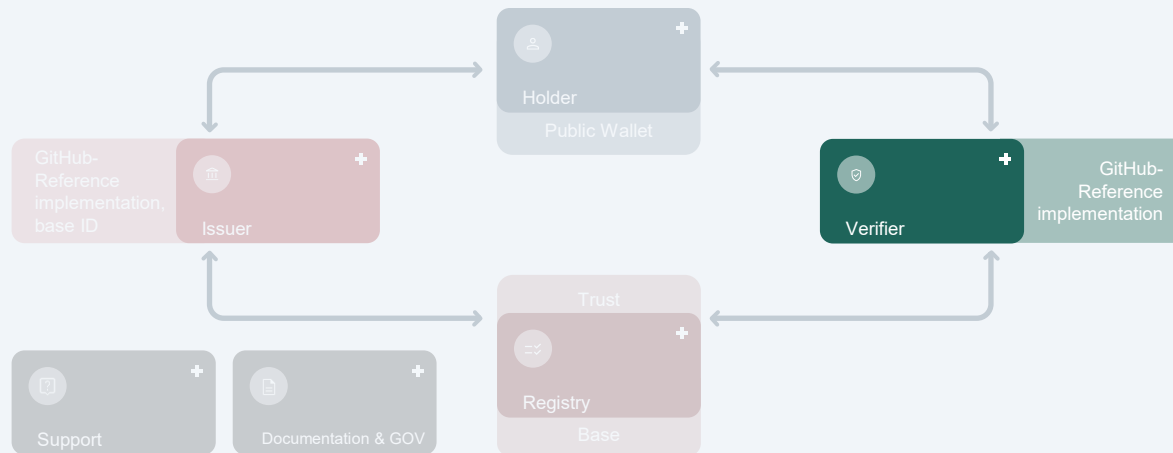

## Holder

- Main use cases: Receive, hold, present and delete VC (e.g. base ID)
- Basic design towards E-ID 2026
- Further app functionalities (security features, version enforcement, ...)
- Multi format & multi signature approach

# Scope

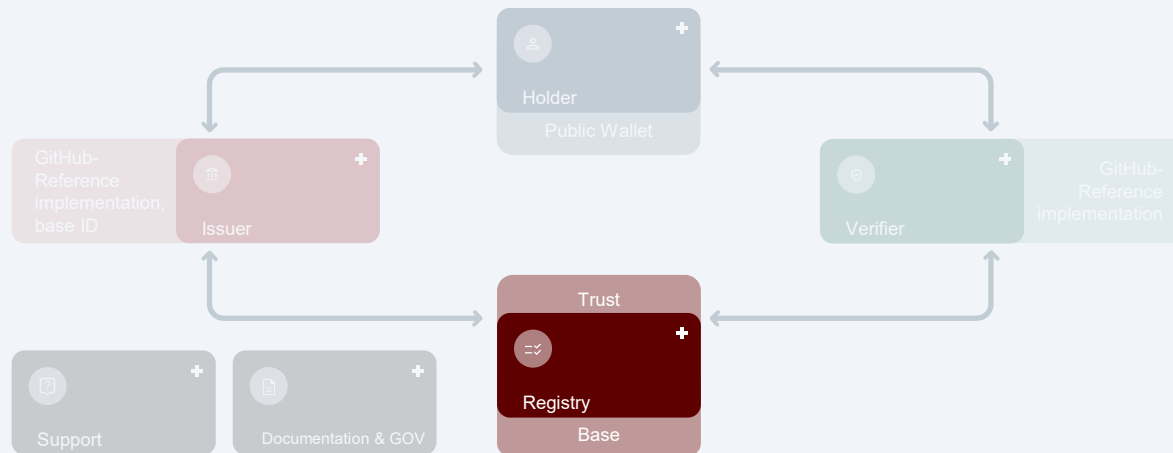

## Verifier

- Generic component for the provision of use case-specific verifications by verifiers
- VCs can be verified

# Scope

## Basic registry

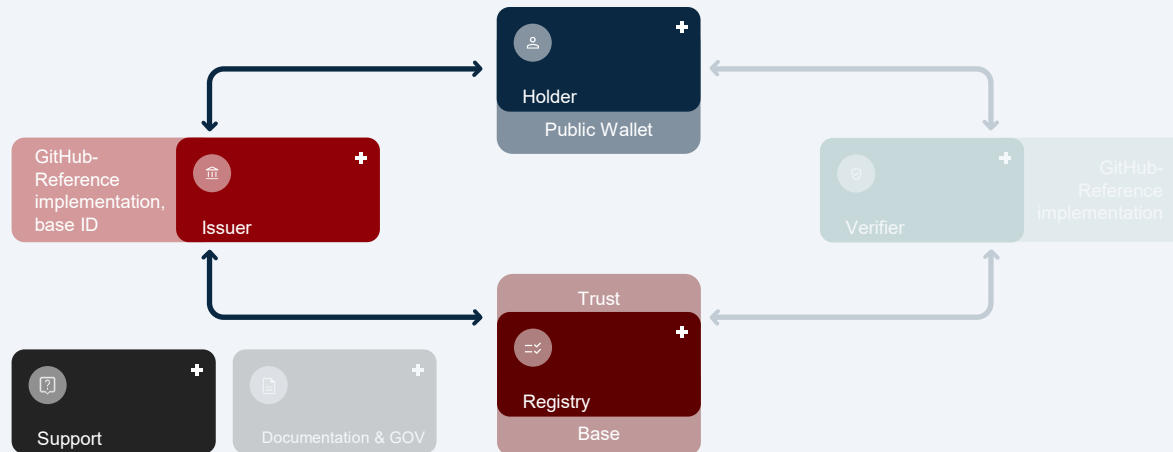

- Public keys are publicly accessible and enable ecosystem-internal actions (e.g. VC integrity)
- Provides information about the status of a VC

## Trust registry

- Checks and confirms that the identifiers belong to a specific issuer and verifier (ensuring that the issuer/verifier is who they say they are)
- Simple onboarding in the registers

# Scope

## Support

- Improved support processes incl. digital assistant

# Environment Strategy

2024

**Pilot Wallet**

**ePDL Canton Appenzell Ausserrhoden**  
- ePDL

2025

**Public Beta**

- Base ID\*  
- Other VCs

**Pre-release Holder App\***

**ePDL all Switzerland**  
- ePDL

2026

**Integration/Early Access Environment\***

- Base ID\*  
- Other VCs

**Holder App\***

**PROD Environment\***

- e-ID  
- ePDL and others

\* Working title
