The entry of legal entities in the trust registry

- The **technical implementation** for the registries is well under its way (Public Beta)
- The **process of how and with what data the registration** will take place, is still being **evaluated**. Recently, a round table took place with representatives from public authorities, standardization bodies and the industry
- The wheel shall not be reinvented, **existing standards and sources** shall be used
- However, reducing media-ruptures and other **inefficiencies** shall be addressed if possible
- If possible, **hierarchies between and within legal entities** shall be made visible
